# PRELIMINARY REPORT

TO HIS EXCELLENCY,

JOHN J. CORNWELL,

Governor of West Virginia.

SIR: I herewith submit to you my first Annual Report of the Department of Mines, it being the thirty-sixth annual report of the condition of the coal industry of the State. The period covered by the statistics shown therein is for the fiscal year beginning July 1, 1917, and ending June 30, 1918.

When I assumed the duties of this Department under your appointment on May 1, 1918, I found one vacancy in the inspection force, the Sixth District, which I immediately filled by the appointment of Mr. Zach Evans, with headquarters at Handley. This was followed on May 1st by the resignation of Mr. P. A. Grant, of the Ninth District, and Mr. James Golden was appointed to succeed him. These were the only appointments made by me during the period covered by this report as it has been my purpose to retain all the employes, regardless of their political affiliations, so long as they render adequate service to the State and perform their duties in a thorough and efficient manner.

During the year the conditions in the coal industry have improved to some extent, but not so greatly as they should have. With the coming of the war the operators were confronted not only by the shortage of railroad cars but by a scarcity of labor as well. At no time during the year were they able to run their mines to their full capacity, nor to meet the demands of the consumer. West Virginia should produce at least 125,000,000 tons of coal and would have done so under more favorable conditions. More men were employed during the year and more days worked than for the year previous, and a fair increase was obtained in both coal and coke. During the year covered by this report there were 790 companies reporting 1,357 operating mines, and which produced 81,041,640 gross tons of coal, an increase over the coal produced the previous year of 1,231,988 gross tons.

Below you will find a comparison of the production of coal and coke for the fiscal years 1917-18, together with the increase of same:

	1917	1918	Increase	Increase In Per Cent.
Coal .....	79,806,652	81,041,640	1,234,988	1.55
Coke .....	2,533,314	2,843,597	310,283	12.33

You will note from the above that the production of coal for the year covered by this report has increased 1,231,988 gross tons over the year 1917, while the production of coke during the same period has increased 310,283 net tons.

## INSPECTION DISTRICTS AND APPOINTMENTS

On July 1, 1917, there were three vacancies on the Inspection force in the Fifth, Eleventh and Twelfth districts, and Mr. M. B. Coulter was appointed

for the Fifth district with headquarters at Moundsville; Mr. V. E. Sullivan for the Eleventh district with Beckley as headquarters and Mr. Thos. Stockdale for the Twelfth with Bramwell as headquarters. On September 1, 1917, Mr. S. E. Hawkshaw succeeded Mr. Geo. R. Cook, resigned; on September 10, 1917, Mr. Evan L. Griffiths succeeded Mr. Frank E. Parsons, resigned; on January 1, 1918, Mr. W. H. Sandridge succeeded Mr. L. D. Vaughn, resigned; on January 1, 1918, Mr. R. M. Lambie succeeded Mr. J. G. Vaughan, resigned; on January 20, 1918, Mr. E. L. Brewer succeeded Mr. Andrew Calderwood, resigned; on May 1, 1918, Mr. Zach Evans succeeded Mr. R. B. Cobb, resigned, and Mr. James Golden succeeded Mr. P. A. Grant, resigned; on January 15, 1918, Mr. W. J. Murphy succeeded Mr. L. G. Bray, resigned, and was later succeeded on March 1, 1918, by Mr. H. L. Butler.

### PRODUCTION OF COAL AND COKE

During the year 790 firms representing 1,357 producing mines, together with the small country and wagon mines, reported a total production for the fiscal year ended June 30, 1918, of 81,011,640 gross tons, an increase of 1,231,988 gross tons, or 1.55 per cent. over the year ended June 30, 1917. Within this same period the coke manufactured in the State amounted to 2,843,597 net tons, which is an increase over the preceding year of 310,283 net tons, or 12.33 per cent. Below you will find the estimated value of the production of both coal and coke for the past year:

Total value of coal produced (81,041,640 G. T.)	\$229,346,841.20
Value of coal used in operating mines (1,377,813 G. T.)	3,899,210.79
Value of coal sold local trade and tenants (1,131,247 G. T.)	3,201,429.01
Value of coal used in coke ovens (4,406,591 G. T.)	12,470,652.52
Value of coal shipped from mines (73,125,989 G. T.)	206,946,548.87
Value of coal mined by small country mines (1,000,000 G. T.)	2,830,000.00
<b>Total</b>	<b>\$229,346,841.20</b>
Value of coal sold (75,257,236 G. T.)	213,177,977.88
Value of coke sold (2,843,597 N. T.)	19,427,075.42
Total value of coal placed on market	\$232,605,053.30

The increase in value over the previous year is as follows:

Coal	\$ 48,983,807.68
Coke	7,343,167.64
Net increase in value of product	\$ 56,326,975.32

The coal produced was disposed of in the following manner:

Produced by small country mines—sold at mines	1,000,000 G. T.
Used in operation of mines	1,377,813 G. T.
Furnished local trade and tenants from commercial mines	1,131,247 G. T.
Used in coke ovens	4,406,591 G. T.
Shipped from mines	73,125,989 G. T.
<b>Total</b>	<b>81,011,640 G. T.</b>

The above tonnage originated in the several Geographical Districts as follows:

Panhandle	2,663,201
Fairmont	11,328,954
Preston-Barlow	4,724,030
Elk Garden	3,216,972
Mason	174,097
Putnam	426,633
Kanawha	10,644,426
New River	11,447,498
Logan	9,466,888
Pocahontas	20,762,352
Mingo	3,187,589
Small Mines	1,000,000
Total	81,041,640

During the year there were 3,418 mining machines in use at 883 mines, employing 20,905 men and producing 51,816,144 gross tons of coal, which is 63.91 per cent. of the total production of the State and which is 2,424,907 gross tons in excess of the machine mined coal during the fiscal year ended June 30, 1917.

The following table exhibits the growth of machine mining since the year 1897:

YEAR	Number of Mines Using Machines	Number of Machines in Use	Total Employed Incident to Machines	Number of Tons Produced by Machines	Percentage of Total Production	Number of Days Worked

The total acreage of coal mined in the State, based upon returns by the operators and made at this office since 1897 are represented in the following table:

1897	1,732.9 Acres
1898	2,184.6 Acres
1899	2,561.2 Acres
1900	2,638.8 Acres
1901	5,854.6 Acres
1902	3,352.0 Acres
1903	3,222.3 Acres
1904	3,967.7 Acres
1905	4,691.8 Acres
1906	5,516.5 Acres
1907	5,779.7 Acres
1908	5,915.0 Acres
1909	5,608.0 Acres
1910	7,907.4 Acres
1911	10,801.8 Acres
1912	11,240.6 Acres
1913	11,231.0 Acres
1914	10,100.0 Acres
1915	9,472.0 Acres
1916	10,230.0 Acres
1917	10,343.0 Acres
1918	10,751.0 Acres
Total	132,551.9 Acres

The mines of the State average 221 days during the past year as against 215 for the preceding year.

### COKE OVENS AND COKE PRODUCED

There were 79 coke plants operated in the State during the year, which reported a total of 11,652 coke ovens, of which number 6,591 were in actual operation, there being 5,061 ovens not in use during the year.

There were 4,406,594 gross tons of coal converted into coke which gave a yield of 2,843,597 net tons of coke and gave employment to 2,544 persons. The increase in the production of coke as compared with the previous year was 310,283 net tons, at an increased valuation of \$7,343,467.61. The average price per ton of coke was \$6.86, an increase of \$2.00 per ton over the preceding year.

### MEN EMPLOYED

During the year there were employed at the mines and coke ovens within the State an average of 92,132 persons, an increase over the previous year of 3,267. Of the total number employed there were:

16,484	Black Miner
25,137	Mixed or Miner
4,768	Mixed or Miner and Helper
24,864	Black Helper
18,265	Black Helper
2,544	Coke Worker

Counting the superintendents, mine foremen, fire bosses, store managers, store and office clerks, it would be safe to add five persons per mine employed in these capacities. Adding this estimate on 1,357 producing mines, it would make a total of 6,785 persons, or a grand total of employees directly connected with the operation of the mines of 98,917.

The nationalities of the persons employed in and around the mines are given in a tabulated form in another part of this report and the totals of the various nationalities are as follows:

American White	71,468
Negroes	17,879
Italians	6,869
Hungarians	4,721
Poles	2,225
Slavish	1,124
Austrian	2,192
Russian	1,388
Other Nationalities	4,916
Total	92,132

### SHIPMENTS OF COAL AND COKE

For the fiscal year ended June 30, 1918, the operating coal companies of the State reported 72,160,576 gross tons of coal and 2,843,597 net tons of coke as being shipped over the railroads from the mines in the State. They also reported for the same period 665,113 gross tons of coal as being shipped by river. The coal floated down the Great Kanawha river amounted to 653,516 gross tons as against 645,211 gross tons for the previous year. There were also floated down the Ohio river from this State 11,897 gross tons of coal. This does not include the tonnage of fuel consumed by water craft and local river trade. There was no coal shipped by the Monongahela river and no coke was shipped by water, either by the Kanawha, Monongahela or Ohio rivers during the year.

### SELLING PRICE OF COAL AND WAGES PAID

During the year the average price received by pick miners throughout the State for mining run-of-mine coal was 78 cents as against 69 cents in 1917, this being an increase of 9 cents per ton. The average tonnage produced by each

pick miner was 1,712 tons, an increase of 63 tons over the fiscal year 1917. The average annual wage of pick miners (all pick miners included) was \$1,335.36, which was an increase of \$197.55 over that of 1917.

The average selling price of coal shipped from the mines of the State was \$2.83 per gross ton run-of-mine coal, which is an increase of 57 cents per ton over the price received last year. Coke was sold f. o. b. at the ovens during the year at an average price of \$6.86 per net ton, which is an increase over the previous year of \$2.09 per ton.

### ACCIDENTS

There were 104 lives lost in connection with the mining industry of the State during the year ended June 30, 1919. Of this number, 352 were killed inside the mines and 52 outside, or a total increase of 10 during that period, four of which increase were inside and six outside.

This increase in the number of fatalities is more than off-set by the increased production, but could have been avoided had proper attention been given to the physical condition of the mines, and had the employee used a reasonable amount of care in the performance of his duties. The large number of slate falls and accidents by mine cars are responsible in a large measure for the fatalities occurring in this State, as 75 per cent. of the accidents are chargeable to these two causes alone, and could be avoided by a reasonable exercise of care and caution. The department still continues to send a monthly report of all fatal accidents to each of the operations within the State and we believe this, in a great measure, will assist in keeping the number of fatalities down to the lowest point possible. The report shows the name of company, the mine, name of deceased, date and cause of accidents, and any other information which may be pertinent, of all accidents occurring both inside and outside the mines.

There were 795 non-fatal accidents at the mines during the year, 650 of which were inside the mines and 145 outside, thus showing a decrease in non-fatal accidents of 138, under the previous year.

Below is a comparison of fatal and non-fatal accidents occurring during the fiscal years 1917-1918.

YEAR	Fatal	Non-Fatal	Fatal Inside	Fatal Outside	Non-Fatal Inside	Non-Fatal Outside
1918 .....	404	795	352	52	650	145
1917 .....	394	933	348	46	829	167
	10 (I)	138 (D)	4 (I)	6 (I)	176 (D)	22 (D)

### DISASTROUS EXPLOSIONS

One disastrous explosion occurred within the State during the year. At Yukon, on December 15, 1917, a local gas explosion at Yukon No. 1 Mine, operated by the Yukon Pocahontas Coal Company, killed eighteen persons. In addition to this, three other disasters occurred, two inside and one outside the mines. On November 4, 1917, seven laborers employed by The Prockter Coal Company at Amherstdale, Logan County, were stretching an electric wire just outside their power house when it came too close to a high voltage line of the Logan County Light and Power Company, electrocuting four of their number and burn-

ing the others badly. On February 19, 1918, four men were killed by a fall of top coal and slate at the Caswell Creek Colliery of the Pocahontas Fuel Company, while cleaning up a slate fall. On May 20, 1918, thirteen men lost their lives in a mine fire at the Villa mine operated by the Mill Creek Cannel Mining Company. A detailed statement of these accidents is given in another part of this report.

### TONNAGE PER FATALITY

per 1918

Since the year 1883 the average gross tons of coal produced per each fatality inside the mines have been 158,971 tons, including 1918, which is 230,232 gross tons. At the mines where fatal accidents occurred there was an average of one life lost for each 87,964 gross tons of coal produced. The 352 lives lost inside the mines during the year occurred at 226 mines employing 25,115 persons inside and produced 30,966,996 gross tons of coal; while the other mines at which not a single life was lost inside the mines produced 50,974,644 gross tons. During the fiscal year ended June 30, 1918, the causes of accidents in which lives were lost are summarized as follows:

Killed by explosions (all forms)	13
Killed by fall of roof and coal	200
Killed by mine cars	65
Killed by electrocutions	15
Killed by other causes	54
<b>Total</b>	<b>352</b>

Since 1897 there have been killed inside the mines of the State as follows:

Killed by fall of roof and coal	3,053
Killed by mine cars	674
Killed by gas explosions	437
Killed by dust explosions	702
Killed by electrocutions	215
Killed by other causes	804
<b>Total</b>	<b>5,885</b>

The experience of persons killed and injured for the past fifteen years, from 1901 to 1918, inclusive, is as follows:

Having an experience of one year or less	2,997
Having an experience of two to five years	4,339
Having an experience of six to ten years	2,270
Having an experience of eleven to twenty-five years	1,738
Having an experience of twenty-five to fifty years	323
Having an experience of many years	520
Having an experience of unknown years	3,502
<b>Total</b>	<b>15,689</b>

The above table shows conclusively that the persons with little experience are the persons who are most frequently injured or killed.

Since the year 1883 the average lives lost inside for every 1,000 persons employed inside the mines was 6.55.

In conclusion I desire to express to you my appreciation of the confidence reposed in me since my appointment, and for the kind and courteous consideration given me in the discharge of my official duties. I also desire to thank both the operators and miners for their hearty co-operation and to assure them that everything in my power will be done to guard life and property, and I will, at all times, use my best efforts to promote the welfare of the coal industry of the State.

Respectfully submitted,

W. J. HEATHERMAN,  
Chief of Department of Mines.

## FATAL ACCIDENTS AND DISASTERS IN WHICH TWO OR MORE PERSONS LOST THEIR LIVES

October 26, 1917—McDowell County—While returning from their work in Page No. 1 Mine of the Page Coal & Coke Company, Louis Quarrels and J. H. Toney, negroes, miners, were caught by a fall of slate at mouth of First Right Entry of mine and instantly killed.

November 13, 1917—Marion County—Samuel M. McMahon, Scotch, Company Inspector for the Jamison Coal & Coke Company, and Brice Warren, American, an Assistant, were overcome by gas in Jamison No. 7 Mine of that Company, both losing their lives before assistance could be rendered them. They were wearing oxygen helmets and searching for the bodies of three men who had lost their lives by a gas explosion in this mine some months previous to this accident.

November 4, 1917—Logan County—Harold Hamilton, Isaac Walker, J. M. Bear and Wingfield Enochs, Americans, outside laborers, were electrocuted at Proctor Mine of the Proctor Coal Company. These men, together with three others, were changing the electric wires from a temporary substation to a permanent rotary substation which had just been completed. In stretching the necessary connecting wires they allowed the line to swing to such an extent that it came in contact with the high voltage wires of the Logan County Light and Power Company, carrying 44,000 volts, killing four instantly and badly burning the others.

December 15, 1917—McDowell County—A local gas explosion caused by a door being left open, short-circuiting the air, occurred at Yukon No. 1 Mine of the Yukon Pocahontas Coal Company. At this explosion the following lost their lives:

Frank Hall, American, bratticeman.  
Bill Hoops, American, tracklayer.  
Arthur Spears, American, tracklayer.  
Ben Johnson, American, motorman.  
Leroy Bonds, American, tracklayer.  
D. L. Turpin, American, tracklayer.  
Geo. Cloud, American, tracklayer.  
Linn Sheets, American, assistant foreman.  
Pete Hoster, Austrian, tracklayer.  
Tom Chufrane, Austrian, miner.  
Geo. Steneck, Tyrolen, tracklayer.  
Ed Johnson, Negro, miner.  
Bob Grigsby, Negro, tracklayer.  
Geo. Coil, Negro, miner.  
Dan Brown, Negro, motorman.  
Adolfus Coil, Negro, tracklayer.  
Scott Necessary, American, tracklayer.  
J. R. Johnson, American, laborer.

February 19, 1918—Mercer County—While cleaning up a slate fall on the main entry of Caswell Creek Colliery of the Pocahontas Fuel Company, Roosevelt Delaney, Negro, slateman, Janos Szabo, Hungarian, slateman, and Richard Delaney, Negro, slateman, were instantly killed, and Thomas Brown, Negro,

miner, received injuries from which he died on February 27, when they were caught by another fall of top coal and slate.

March 12, 1918—Harrison County—Robert O'Donnell, American, miner, and Roy L. Poling, American, not an employe of the Company, were instantly killed by explosives at Norwood No. 1 Mine of the Francois Coal and Coke Company. O'Donnell had quit the employ of the Company the night before and he and his companion had entered the mine without permission to procure his tools. It is supposed that the tools came in contact with explosives on his person, causing the explosion.

April 8, 1918—Logan County—Luther Thomas, Negro, and George McQuillar, Negro, slate and timbermen, were instantly killed by a fall of slate while setting timbers in No. 12 Room, No. 4 mine of the Main Island Creek Coal Company.

May 20, 1918—Kanawha County—A mine fire at the Villa mine of the Mill Creek Cannel Mining Company caused the death of thirteen persons from suffocation. In fact they were murdered. The Company was using a gasoline engine to drive their fan, which was located about eight hundred feet inside the mine, and the testimony at the inquest proved that the engine and fan had been in that location for eleven years and that one of the spark plugs of the engine was in the habit of jumping out daily, unless weighted down with stones or anything that could be conveniently located. This loss of life is inexcusable and can be charged directly to the carelessness and utter disregard of life by the operating company. Had the fan and engine been properly placed and protected, it would not have occurred. The Department was compelled to pay the entire cost of the rescue work, the Company even refusing to pay for the brattice cloth that was purchased by the State (on account of their credit) in order to reach the entombed men. Six District Mine Inspectors, together with the Chief of the Department and the United States Mine Rescue Car No. 8, conducted the rescue work, but the condition of the mine was such as to prevent their reaching the men until some hours later. The following is a list of those killed in this disaster: Emory Belcher, Giles Luther Workman, Wilbur Hunter, Fudge Edward Norman, Robert Lee Lucas, Enoch Hunter, Jr., William Harry Buckner, John Lealand Sampson, Robert Audrey Buckner, Samuel Mayford Young, Andrew Allison Lucas, Bura Thornton Matheny and Curtis Benton Matheny.

June 6, 1918—Fayette County—George Amick, American, motorman, and Jess Clatworthy, American, tippelman, both outside, were instantly killed by being thrown from monitor at Stone Cliff mine of the West Virginia Coal Company. The deceased were riding monitor up the incline plane and drum runner was unable to control drum, thus causing the monitor to overturn, killing both men instantly.
